Dirac V1 (11/2017)

Prisma secondment June 2018

- INFN Pisa has almost finished the testing of digitizer V1
- A new V2 version is foreseen, mostly to improve the radiation hardness
- New design, replacement of some components:
 - FPGA
 - DCDC
 - Optical transceiver (VTRX)
- A Prisma engineer will be seconded in June 2018 to collaborate with INFN Pisa researchers to the new design
